NOTICE.

THE REPUBLICAN is pleased to contribute to public matters, but all notices of festivals, fairs, meetings of societies, suppers, entertainments and mentions of marriages, births and deaths beyond the regular announcement will be charged for at regular rates.

NOTICE TO BUSINESS MEN.

From this date THE REPUBLICAN will be responsible for any bills unless contracted on a written order of the management.

W. L. VAIL, Manager.

\$10.00 REWARD.

So many complaints have been made by subscribers of having their paper stolen that THE REPUBLICAN will give a reward of \$10.00 for information leading to the arrest and conviction of any person caught stealing this paper from the yards or steps of subscribers.

SILVER, COPPER AND LEAD.

Silver was quoted yesterday at 97 1/2¢ per ounce; copper at 112 1/2¢ per 100 pounds; and lead at 42 1/2¢ per 100 pounds.

TARIFF PICTURES.

Protection brought down steel rails from \$48.50 per ton in 1882 to \$31.75

per ton in 1890. What good did that do you? Well, in 1882 the average rate on all the railroads of the United States for carrying one ton of freight one mile was 1.23¢ cents.

In 1890 the average rate was 0.97¢ cents.

THE REPUBLICAN is a newspaper. It never allows an opportunity to pass to give the latest. At great expense and personal inconvenience it has secured upon its staff a poet. The public this morning is introduced to Section I, on the "Beautiful Dust."

[Poetry for Citizens and Councilmen.]

Oh, the dust, the beautiful dust,
 Strangers are wearing in deep disgust.
 Water your streets, or by its gate
 We'll leave, not wanting your real estate.

Now, mind you a comfortable town,
 With its dust well watered down,
 Is what we'll sit and await.
 Not caring to buy flying real estate.

When the dust shall no longer go on a bust,
 No filling of clothes with apparent rust,
 Then we'll stop in and buy,
 And for dear Phoenix we'll die.

Now, then, water the street,
 So we all can look neat,
 And then we'll the stranger attract,
 Who will greet us and open their sack.

C. M. R.

The statements made at the time that the Edmunds' Act was a measure to persecute Mormons is not verified in the fact that in Arizona there has been no discrimination between Mormon and Gentile. The fact that some of the Saints and many laymen of the church of Jesus Christ of Latter Day Saints are under indictment for a numerous multiplicity of wives, is the fault of the Saints and the laymen, not the law. It proves just what has been charged, that amongst the elder generation of Mormons polygamy is practiced just as before, only by stealth.

The Olympic club, of New Orleans, according to this morning's telegrams, has offered a purse of \$25,000 for a fight between Sullivan and Slavin. When Slavin knocked out, in New York the other night, a man in nine rounds who stood up seventy-two rounds against Sullivan he placed himself in a position to fight for the world's championship. Sullivan will have to fight sooner or later, or give up the belt.

The Republican is pleased at all times to publish communications of general news from the towns and camps of the Territory. See that your own community is represented.

PHOENIX is situated by nature to be a great railroad center. She likewise has the products to make it profitable for any railroad to make this an objective point.

THE PEOPLE will welcome any or all roads which desire to enter the city. There is no favoritism which is separated from a straight business proposition.

LEADING editorial in the Gazette this morning: Ah, be Jove, donchknow, Mr. Wilson is absent.

CONTINUED inquiry of real estate makes everybody feel good.

ONE of the most common complaints of the tourists is the dust.

THE streets need water.

THE NAME OF BLAINE.

It is a significant fact that no great body of Republicans have assembled in the past six months wherein the name of Blaine has not called forth boisterous applause. At the meeting of the National Republican League in Cincinnati some weeks ago the Secretary of State was cheered vociferously for fully five minutes. Again, in the same city, at the gubernatorial convention which nominated McKinley, day before yesterday, a similar spectacle was witnessed.

"At the right hand of the President," said Chairman Nevins, "stands a man who, for keen intellect, broad statesmanship and devotion to American interests and American progress, is the peer of any man who ever lived—James G. Blaine."

The mighty crowd never heard the name of Blaine mentioned. When the eloquent speaker reached the climax, "A peer of any man who ever lived," the great concourse burst out in uncontrollable applause. Hats and handkerchiefs were flying in the air, to testify the love and devotion felt for the leader of leaders and prince of parliamentarians. In view of such enthusiastic outbursts, it becomes a serious question whether or not Mr. Blaine can consistently refuse a nomination which, from appearances, will be tendered him unanimously and by acclamation. The public require, now more than ever, his broad, progressive and liberal ideas at the helm of State. If there are many more nominating conventions held like the Buckeye affair, the question will be settled with or without Blaine's consent.

The public are anxiously awaiting the verdict in the Duboney case. As the matter now stands it looks like a hung jury. This is strange, for the evidence in the case is decidedly plain and free from ambiguity.

WATER the streets.

A NEW DISCOVERY

It is always hard to make people believe that you have the best, especially when the article is a newly invented one. They will look upon all propositions made with a suspicious eye; but we trust they will give careful consideration of the proposition we are about to make. We intend to show the people of this Territory the only road to prosperity. We do not wish to show that Statehood will develop the resources of this glorious country, but we contend, and do so not because we are now personally interested in this question, for we became interested because we saw the advantages and necessity of going into this business, but because we honestly believe that the future prosperity of this Territory depends upon the reclamation of the desert lands by windmills. We know what we say because we practice what we preach. California today is what she is on account of windmills giving her "the start in life." The *Armorator* is the latest improved mill and shows an increase of thirty-five per cent per day, and if you have a large reservoir you can let the mill run night and day. One hundred and ninety-two thousand gallons of water would irrigate ten acres of fruit trees per each irrigator. Think of it. Do not doubt this statement, for we will sell our mills with this guarantee. We know the *Armorator* will do it, and if it don't you are under obligation to take the same. We also guarantee that a 16-foot *Armorator* will work a four-inch pump 500 feet deep. Cattlemen! This deserves your careful consideration, for you can save immensely by putting in an *Armorator*, and use your steam pumps in cases of emergency. The *Armorator* will pump 1000 feet. All steel and will last a life time. Send for circulars and further information.
